OCTOBER MILITARY NEWSLETTER #4 -

The gathering of intelligence is one of the most important functions of the Military Coordinator. You may have a large, well-trained, well-equipped Unit, but if you do not know what is happening, they will be virtually useless.

The word "intelligence" is used to describe the process whereby we obtain knowledge of the plans and policies of our enemy and his capability to carry them out. To the average citizen, this field represents that of spies, danger and intrigue, peopled by vicious, shadowy figures with supernatural power and intelligence.

In reality, Intelligence is simply the process of obtaining information concerning the enemy, sorting it out and relating it - in accordance with the principles of good security - to our own use. It is also the process of determining the truth concerning the information we have gathered.

It becomes obvious at once, that we will not be able to operate our Intelligence System on the complex basis of a national-state, since this requires many hours of specialized training, an administrative staff, and vast amounts of money. We know we cannot operate on this basis. Our major capability will be in the realm of direct personal contact with the people in our immediate area. Thus, we must remember how to handle PEOPLE properly.

Always remember that our enemies are not super-humans. They put on their pants the same way we do and while they may have vast amounts of money for their evil purposes, we will have the "good will" of a majority of the people, if we handle them properly, plus the assurance that our cause is just and God is with us!

To be effective, we must learn how to control people in our Area of operation. This control may be established in several ways; the best one is to get them to cooperate and work with us, because they believe we have their welfare at heart. This will mean exerting strong control over the "hot headed extremists," in our units, who believe that only violence and terror is the answer to the problem. Anyone who has spent any time in a Conservative organization, will recognize these. They are the people who love to go around saying: "We are inventorying the telephone poles in our area, so we will know how many Jews we can hang." A remark such as this is STUPID, and while seemingly "very macho," will bring us nothing but trouble and will turn many decent Americans against us. From having dealt with young men in three wars, I have found from experience, these "loud mouths" can seldom be trusted and are often the first to run, when the "hot lead begins to fly." So use the "Teddy" Roosevelt theory: "Walk softly, while carrying a big stick."

Luke 11:21 - "When a strong man armed keepeth his palace, his goods are in peace."

People will work for you and with you, if they are convinced their best interests will be fulfilled by your success. Some may work for you, because you will be able to fulfill their selfish requirements. But remember - CONTROL OF PEOPLE THROUGH RESPECT, RATHER THAN FEAR OF REPRISALS, will further your cause.

Unfortunately, during a time of war, there will be those of the enemy who MUST be eliminated. But the main thrust of your Intelligence Operation should be towards the isolation and control of such people.

We know the enemy will fully utilize every principle of "people control." He will lie, threaten, appeal to base motives, blackmail and murder without a second thought. But a Resistance Movement, struggling for freedom, especially if it is Christian oriented, as ours is, cannot sink into depravity without the sacrifice of justification. But we MUST instill in the hearts of our enemy, the absolute knowledge that we will be ruthless in our dealing with the vicious elements of our opposition.

If they wipe out a village containing our women and children, we MUST not retaliate in kind. But we MUST strike fast, hard and relentlessly against the perpetrators of such a crime. THIS WE WILL SEEK TO DO!

We will be operating in a situation where the enemy will control most of the real estate. The national goals will have been taken over by an alien philosophy and have been diverted from the Constitutional course. His agents will be in high places in the captive government and he will attempt to enforce his will on our White, Christian people.

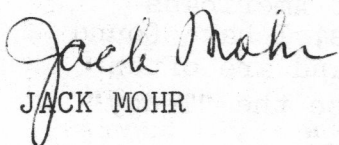

So now, before the storm breaks, we MUST form alliances and loyalties. We MUST clearly identify the enemy - NOW! Mistakes made now will harm us, but later, when the fighting begins, they could very well prove to be FATAL!

Each Unit Commander will form his own intelligence gathering organization. At present, all information will be funneled to our National Intelligence Analyst, Col. Roy Eddy, P.O. Box 418, Hayesville, N.C. 28904. If of an emergency nature, he may be reached at (704) 389-6498. He will evaluate your information and send this to those who need to know. We will notify you immediately of any information of an emergency nature.

Most of this information will be collected through Research; so that it is important for you to forward articles from local papers, magazines, political propaganda, church publications, etc., The voting records of politicians must be viewed, so that we will know those who have supported the enemy before the fighting began. Concentrate on information valuable to your immediate area. It is only of passing interest, to identify a rat who lives a thousand miles away. Each Command is committed to take care "of their own back yard."

In the November Newsletter #5, we will concentrate on the mechanics of Intelligence gathering. Until then, TRAIN! TRAIN! TRAIN! We are now in the most vital period of our existence. You will NEVER be SUCCESSFUL, when the fighting begins, unless you TRAIN NOW!!!

May God protect and Keep You in the Hollow of His Hand,
For Christ and a Free America,

JACK MOHR
